Get started with REHAU Connect

A step-by-step guide on how to create
your first project

Welcome John Dummy Installer

New Project

● CONFIGURATION COMPLETE

Smiths
Project no. 000011TR

● NEW

Goldmans
Project no. 000011TQ

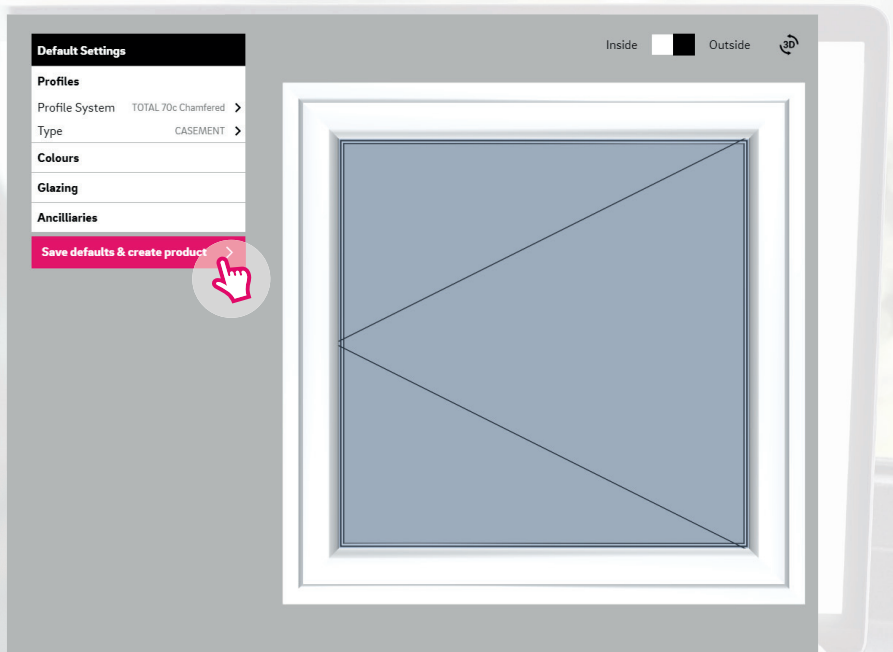

KPI Last month 

Projects open:	2
Projects total:	2
Projects won:	0
Period:	07/10 - 07/11

Step 1:

Input your survey to the platform

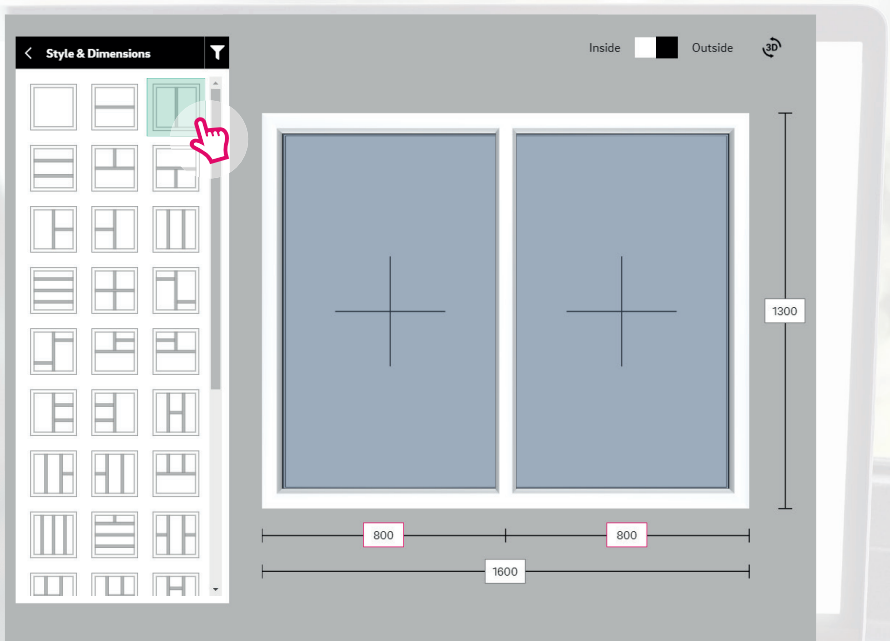

You can win more business with REHAU Connect with our professional survey. You can input the customer's details or simply create a name for the project. In addition, REHAU Connect ensures that you never lose track - all of your projects can be accessed and managed from anywhere.

Step 2:

Create a professional design

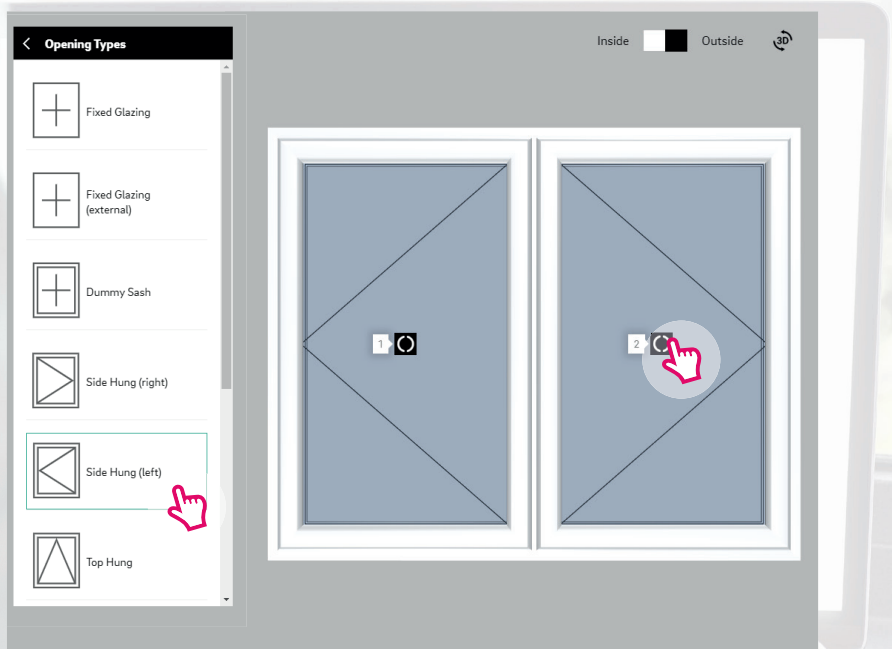

Use our configurator to design the perfect windows and doors with your customer. You will be amazed at what a difference it will make for the homeowner and their decision to place an order. Simply define the default settings of the windows such as the profile system, colour or glazing requirements and your customer will see what you can offer.

Step 3:

Input your window & door measurements

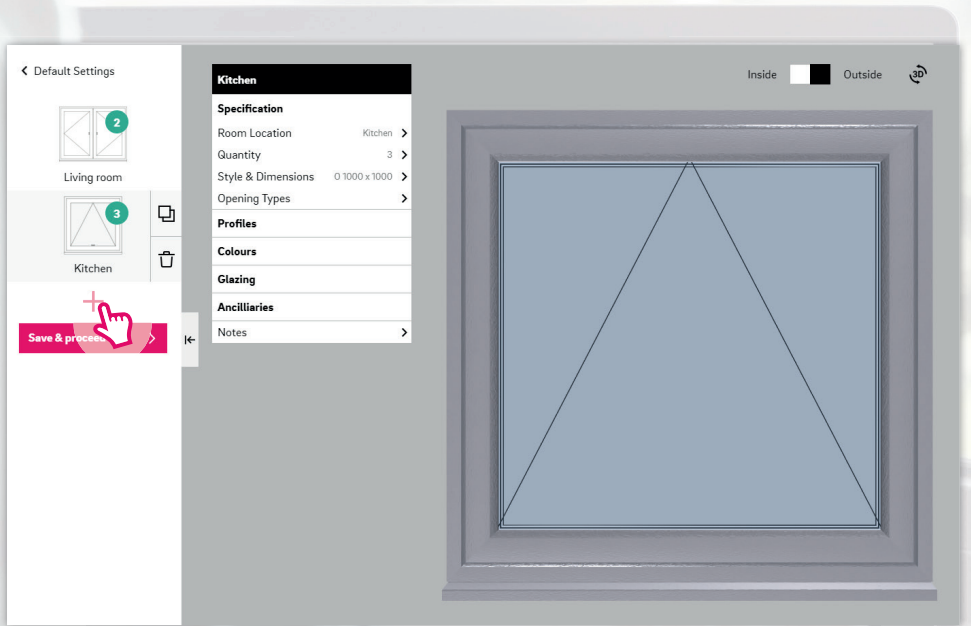

While you are taking measurements you can create every single window individually and define the opening type in the same step. Never lose any measurements and prevent possible misunderstandings with fabricators due to bad handwriting. With REHAU Connect you save time and unnecessary discussion, but best of all you can show your customers their new windows and doors whilst you're measuring!

Step 4:

Show your customer the wide range of opening types

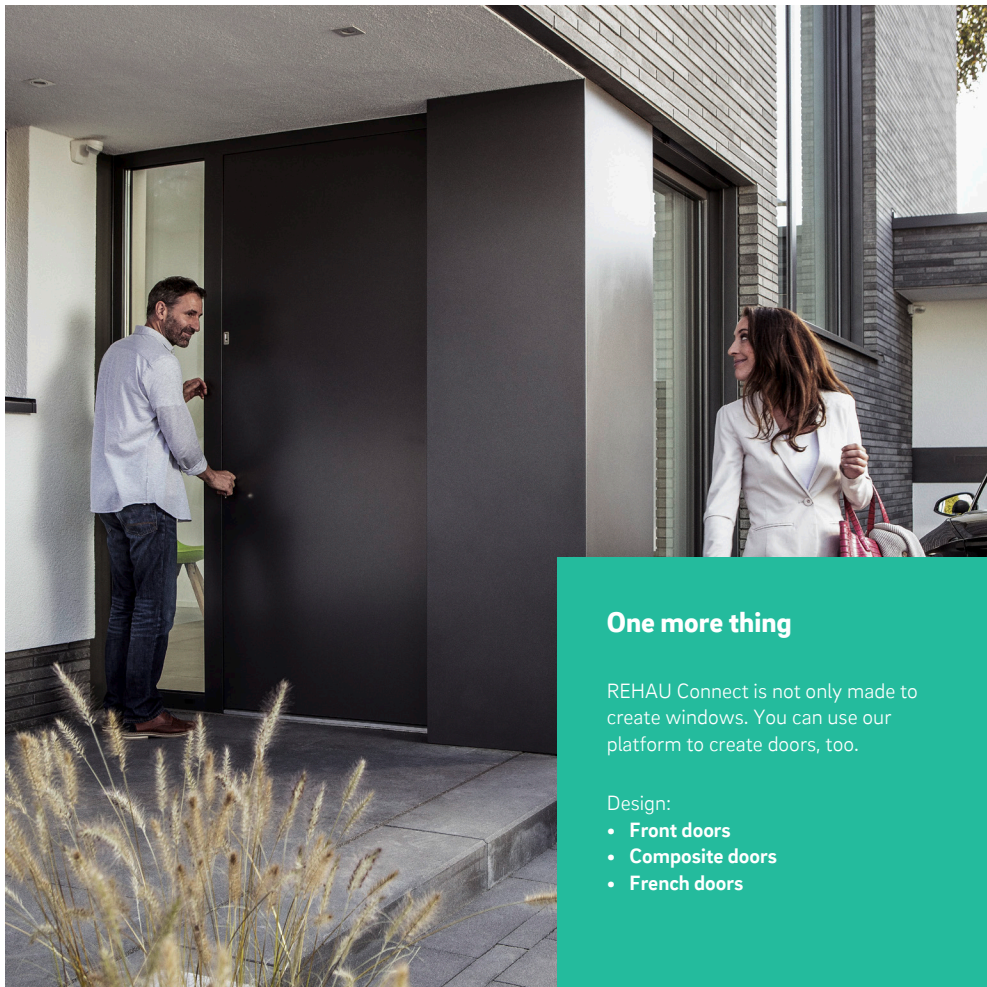

If your customers aren't sure what they would like to have, you can show them everything you can offer in just a few clicks. Show them the difference between how a top hung or a side hung window looks and they will definitely be impressed!

Step 5:

You're in control of winning more business

You get to decide if you would like to specify the windows in more detail and show the full product range, or just have a rough first survey. You can create as many windows as you need and your default settings will be reloaded every time to simplify your work. Get started with REHAU Connect. Professional. Quicker. Reliable.

One more thing

REHAU Connect is not only made to create windows. You can use our platform to create doors, too.

Design:

- **Front doors**
- **Composite doors**
- **French doors**
