

SYSTEM 4500

Folding Doors

The REHAU System 4500 bi-fold door design is a premium solution for spaces that need a wide, unobstructed opening. Whether for residential or commercial applications, this unique door design allows sash panels to fold to either side, creating a wide opening without any interruption. This design can be easily matched with a variety of window and door configurations.

- 1 Large glazing capacity of up to 1 3/8" (35 mm) in thickness**
Improves energy efficiency and acoustical properties
- 2 Large reinforcement chambers in the sash**
Allow for sash sizes up to 7.5 ft (2.3 m) by 3 ft (0.9 m) wide, up to 175 lbs (80 kg)
- 3 Four-chambered sashes and frames**
Provide high energy efficiency
- 4 High-quality hardware**
Operates quietly and effortlessly
- 5 Lever locking mechanism**
Securely closes the end panel of the bi-folding sashes
- 6 Multiple locking points and compression seals all around the sash perimeter**
Provide water tightness, minimal air infiltration, security and good sound insulation

Performance Summary
Structural: up to LC-PG25
