SYSTEM 4500
Tilt-Slide Doors

The REHAU 4500 tilt-slide system is a premium door solution for spaces that do not allow for traditional inswing doors. The unique sash design tilts and slides parallel to the fixed unit with the touch of a finger. Optimal profile design and compression-seal technology contribute to outstanding performance. Available in white, beige or clay colors, the system can also be laminated with solid color or wood-grain foils. Matching windows in a variety of configurations are also available.

1. Unique design
   Operates in top venting and sliding positions
2. Multiple locking points
   Create a tight seal against sound, air and water infiltration
3. Ergonomically shaped aluminum turn handle
   Controls every function
4. High-quality European hardware
   Operates easily and quietly
5. Built-in security in tilt position
   When in the tilt position, the sash automatically engages the locking mechanism providing security against being pulled open
6. 1 3/8" (35 mm) glazing channel
   Accommodates triple glazing, increasing energy efficiency and acoustical properties
7. 2 3/8" (60 mm) and 3 1/4" (83 mm) frame depth
   Provide flexibility for new construction and replacement projects
8. Structural T-mullion profile
   Allows door to be configured as multiple panels
