
SYSTEM 1400

Casement, Awning, Fixed Windows

The System 1400 offers unsurpassed performance. With outstanding structural and sound abatement qualities, the System 1400 can be used in many building types, climates and environments for both new construction and remodeling projects. The system is available in white, beige or clay and can be laminated with solid color or wood-grain foils.

- 1 Multi-point sash locks and snubbers**
Create tight seal, providing extra security and comfort from air infiltration
- 2 Three continuous seals on sash**
Provide superior air and water barrier
- 3 Up to 1 3/8" (35 mm) glazing channel**
Enhances both thermal and acoustical properties of the window
- 4 Contoured or flat-faced sash**
Create either a millwork or contemporary look
- 5 3 1/4" (83 mm) small and large fixed frames and 4 5/8" (117 mm) vent and large fixed frames with choice of contoured or flat/contemporary design**
Provide flexibility for projects with deeper wall construction

Performance Summary

Structural: up to CW-PG60
Impact: up to DP60
Acoustical: up to 41 dB
Thermal: down to 0.15*

* based on simulation
