## RAUVOLET PURE-LINE

FLAT SURFACES IN A NEW DIMENSION

DESIGN FOR  
FURNITURE

# RAUVOLET PURE-LINE

## PRODUCT BENEFITS

---

Classic, linear design is an important feature in the creation of rooms and pieces of furniture in projects. With RAUVOLET pure-line REHAU satisfies this requirement and converts the segmented look of conventional tambour door systems into a homogeneous surface.

RAUVOLET pure-line combines the flat surface of a sash or sliding door with the functional benefits of a tambour door, such as space-saving and unhindered access to the entire cabinet contents.

---

# RAUVOLET PURE-LINE

## PRODUCT RANGE

---

RAUVOLET pure-line is supplied as required as a fully-fabricated complete system and is suitable for horizontal cabinets running into the back wall up to 3 shelves high.

### Matching accessories:

Coordinating accessories such as the shapely recessed handle, the front-mounted, delicate track system as well as the subtle pelmet made from high-quality aluminium round off the RAUVOLET pure-line. The carpet can also be combined with conventional accessory components if necessary.

### Individual design variants:

The flat appearance of RAUVOLET pure-line is captivating both in combination with solid colours as well as with decorative printing.

The lacquering in the required colour is either carried out by REHAU or completely flexibly and individually by our customers themselves.
