# REHAU ACOUSTIC SOLUTIONS

## Any questions?

Thanks to their flexibility, acoustic furnishings are an ideal way of ensuring comfort in office environments.

An illustration of an open-plan office with people working at desks. Acoustic partitions and screens are shown in various configurations. Text overlays provide statistics and benefits.

Up to **60%** of employees in open-plan offices state that noise is the greatest **stress factor**.<sup>1</sup>

On average, it takes **14 days** to recoup the investment involved in incorporating acoustic solutions.<sup>2</sup>
