

REHAU SPECIAL PROFILE FOR FURNITURE

CUSTOMISED SOLUTIONS FROM REHAU

TURNING IDEAS INTO PRODUCT

REHAU have more than six decades' experience in developing products using various materials, such as PVC, ABS and PP. Our team of in-house experts are constantly improving material formulations and component designs to produce more innovative and durable goods. Backed by state-of-the-art manufacturing technologies and testing procedures, we can formulate materials and products to your specific requirements and comply with the regulatory policies of your markets.

From concept to production, you can develop your appliances with assistance and advice from our specialists.
