

PRODUCT SUBMITTAL 620

Product: **Zone Control Module**
Date: **20-May-16 (supersedes, 06-Dec-10)**

Article No.	Description
243047-001	Zone Control, 4 Zone Module
243077-001	Zone Control, 6 Zone Module

TECHNICAL DESCRIPTION

Voltage	24 volt AC
---------	------------

FUNCTIONAL DESCRIPTION

The zone control module provides a convenient low-voltage wiring panel for thermostats and manifold valve actuators. The zone control module is for use with REHAU thermostats (Art. 236477-001, 236487-001, 398022-001 and 398023-001) and manifold valve actuators (Art. 260166, 260167). The zone control module may control up to four "zones" (thermostats), with up to eight actuators (maximum two per zone). Each zone has a terminal for end switch wires, provided on REHAU manifold valve actuators, to operate circulator pumps, boiler, etc.(through a separate low-voltage relay). For more than four zones (thermostats), additional modules can be connected using standard wire.

Features and specifications:

- LED indicator lights for power and actuation
- Neutral priority
- Screwless, push-button type terminal blocks for thermostat, actuator and power supply
- Overall dimensions approximately 6 3/8 W x 6 5/8 H x 2 3/4 in. D
- Enclosure: Flame Retardant Plastic 94V0
- Power supply: 24VAC power supply required
- Electrical Switch Rating: 10 A 1/3 HP @ 120VAC
