# EuroDesign 4500

The EuroDesign 4500 offers a unique solution for large openings in both the residential and commercial construction markets. This versatile design allows for configurations such as fixed, hopper and tilt-turn windows as well as tilt-turn, hinged, and folding doors.

**1 Up to 36 mm glazing capacity**

Provides excellent acoustic and thermal isolation performance

**2 Large reinforcement chambers**

Enable the insertion of steel reinforcements for large openings in demanding commercial or residential construction sites

**3 Frame accessories grooves**

Accept a variety of accessories such as brickmolds, extension jambs and mulling components

**4 60 mm frame depth**

Allows for hassle-free replacement installation

**5 Multiple closing points and double compression seals**

Create a tight seal against sound, air and water infiltration
