RAUVISIO SURFACE MATERIALS
Visions become reality
Surfaces are our passion – our focus is to develop surface products, which are just as individual and diverse as the wishes of our customers and partners while meeting the highest standards.

REHAU has been stimulating innovations time and time again for just under ten years with its smart surfaces – from glass via lacquer through to the texture – and offers a genuine additional value with it for fabricators and end customers. Our collection work is based on current trends and market requirements. It is our objective to be able to satisfy customer demands with sustainable, attractive and innovative designs and to inspire the creative interior design with new designs.

This is what REHAU furniture solutions are about.

Always as individual as the people – REHAU furniture solutions.

**Surface configurator**

Configure your made-to-measure front in four easy steps from one piece (more on p. 46).

[www.rehau.com/boards](http://www.rehau.com/boards)
Individuality in the spotlight – surfaces from REHAU.

We are all different. In our tastes, in our demands. In what is important to us. As well as, of course, in the places we like.

Our individuality should be reflected in the places where we live, cook, work and meet with friends and family. The places that make our lives special. In order to allow people around the world to make places like these a reality, REHAU has developed surface products that are as varied as the wishes of our customers and partners, while meeting the highest standards.

This is the way your visions become reality. Individual, personal and varied – with REHAU since 1948.
PASSION FOR COLOR 2019
A passion for the mountain landscapes – A passion for color

REHAU is expanding its collection with striking and vivid colors with 3 grey shades, which are just as varied as the colors in nature. Discover the latest color trends with REHAU – the source of ideas and trend setter for exciting and creative colors in the surface design.

Roccia – the essence of mountains
This grey shade inspires with classic discreetness and cool compactness in equal measure enchanted by the magic of the Himalayan high-altitude mountains.

RAUVISIO brilliant high-gloss/matt
Grafite – bold in the eternal ice
This grey shade captivates with the elegant, dynamic versatility and numerous possible combinations with other colors inspired by the secrets of Antarctica.

RAUVISIO crystal high-gloss/matt
RAUVISIO brilliant high-gloss/matt

Titanio – a glimmer of passion
The passion aroused by the heat of the volcano creates a unique intensity and turns the grey shade into a fascinating, elegant eye-catcher.

RAUVISIO CRYSTAL
The smart glass
Can be processed with conventional wood working tools

50% lighter than real glass

10x more break-resistant than real glass

20% fewer rejects compared to real glass

High scratch-resistance thanks to the hard coat finish

Soft touch & anti-fingerprint thanks to special lacquer (matt surfaces)

Easy cleaning thanks to nano properties

Can be written on and free of residues can be removed again

RAUVISIO crystal vario – individual color matching from 20 boards

Components made of coextruded material are TÜV-tested according to AMK guidelines
The smart glass RAUVISIO crystal looks just as beautiful as real glass, but boasts a vast number of advantages: it is more break-proof and scratch-resistant, much lighter than real glass — and also offers excellent processing flexibility.

**Multitude of variants**

RAUVISIO crystal is available in different decorative design variants:

- RAUVISIO crystal uni
- RAUVISIO crystal decor
- RAUVISIO crystal mirror
- RAUVISIO crystal vario

Upon request, all decorative designs available with magnetic function.
PRODUCT RANGE

Pressed components

**Composite**
high-gloss or matt

Pressed, board in large-scale format consisting of glass laminate, MDF board and color-coordinated balancing sheet.

**Dimensions:**
2,800 x 1,300 x 19 mm

**Purchase quantity:**
From 5 boards*

---

**Slim**
high-gloss or matt

The 4.0 mm thin system product consists of the RAUVISIO crystal glass laminate directly pressed with a color-coordinated balancing sheet.

*For splashback applications and bathroom renovations*

**Dimensions:**
2,800 x 1,300 x 4 mm

**Purchase quantity:**
From 5 boards*

---

**Complete**
high-gloss or matt

Using the REHAU surface configurator, you can have RAUVISIO crystal components and matching edgebands manufactured into individually fabricated components in invisible joint quality from one piece.

**Made-to-measure from from one piece**

*colors can be mixed per pallet*
Easy processing
Regardless of whether it is customised, dimensionally accurate pre-cuts or holes for handles or fittings – you can easily process RAUVISIO crystal using your available wood working tools, without the risk of breaking it or producing any rejects. Even bends and free-form parts can be created without problems.

Back-lighting
The grooves on the rear side are perfectly suitable for backlighting with conventional lamps. This will allow you to add even more highlights.

Top quality
Finished RAUVISIO crystal components made of coextruded material are TÜV-tested according to AMK guidelines.

Grooves & intarsias
Thanks to grooves and intarsias, RAUVISIO crystal offers even more design freedom.

Break and scratch-resistant
RAUVISIO crystal is impervious to breakages and is therefore also suitable for large-scale industrial production. Thanks to its low susceptibility to shocks and breakages, up to 20% fewer rejects can be produced. The material is also exactly as scratch-resistant as real glass and therefore totally resistant – also at the end customer.
Can be written on
RAUVISIO crystal can be written on with conventional board markers, which can be easily removed without leaving any residues. Chalk can be used for matt surfaces.

Easy cleaning
The non-porous surface is sealed with a hard coat finish and can therefore be cleaned without problems. RAUVISIO crystal is also suitable for use in rooms with the highest hygiene requirements.

Practical tip: RAUVISIO crystal slim

With RAUVISIO crystal slim, wall areas in new builds and renovation projects can be renovated and modernised up to twice as fast. The panels are simply bonded with the underlying wall surface, which creates only a few, hardly noticeable joints.

Perfect wall tiles in just a few steps:

Flexibly cutting to size on site: the precise recesses for electrical elements such as e.g. electrical sockets can be practically measured and cut to size at the last minute.
Mirrors can be found virtually anywhere - whether it is in corridors, bathrooms, bedrooms or as an element for upmarket interior design. We provide you with a mirror for every application with RAUVISIO crystal mirror – there are almost no constraints on creativity.

**RAUVISIO CRYSTAL MIRROR**

**Maximum design freedom**

RAUVISIO crystal mirror can be processed in many ways thanks to its polymer properties. There is even more design freedom for customers thanks to bending, grooves and intarsias. Grooves on the reverse side can be back-lit and fascinating light effects are created.

**Dimensions:**

2,440 x 1,220 x 19 mm
2,440 x 1,220 x 4 mm

**Purchase quantity:**

From 5 boards*
RAUVISIO CRYSTAL DECOR

We have expanded our RAUVISIO crystal collection to include new, vivid decorative designs and therefore also your design freedom. Combined with the smart glass, the new fashionable decorative designs create an refined depth effect. You will get a perfect component in combination with the matching edgeband.

Dimensions:
2,800 x 1,300 x 19 mm (high-gloss and matt variant)
2,800 x 1,300 x 4.2 mm (high-gloss variant)
2,800 x 1,300 x 3.7 mm (matt variant)

Purchase quantity:
From 5 boards*

Fashionable decorative designs and smart glass

Vivid, fashionable decorative designs combined with smart glass create a refined depth effect – irrespective of whether it is as a furniture front or large-format wall panel in the splashback. We base our variety of decorative designs on current market trends and offer you exclusive surfaces to design the interior.

* colors can be mixed per pallet
RAUVISIO CRYSTAL MAGNETIC

RAUVISIO crystal magnetic is a magnetic glass panel whose stunning versatility is nothing short of captivating. Irrespective of whether it is as a splashback in the kitchen or a frameless whiteboard in the office – RAUVISIO crystal magnetic provide numerous design possibilities for you. Writing on glossy surfaces with a whiteboard marker or with chalk on matt surfaces can be removed without leaving any residues.

**Dimensions:**
2,800 x 1,250 x 19.5 mm  
2,800 x 1,250 x 4.2 mm

**Purchase quantity:**
From 5 boards*

**Magnetic**

The magnetic functionality is provided by a thin steel inlay. This does not result in any changes of the surface properties of RAUVISIO crystal and the added value in the own house is retained. Use of neodymium magnets required.

*colors can be mixed per pallet
RAUVISIO CRYSTAL VARIO

RAUVISIO crystal vario expands the standard collection with uni, non-standard colors. Your individual color requests can therefore be fulfilled in low order quantities*—regardless of whether it is in high-gloss or matt, as a large-size board or thin glass panel. The surface properties and the excellent depth effect of RAUVISIO crystal is retained without changes.

Customer-specific color matches

Mustard yellow, moss green or rust red - it is completely irrelevant which color highlights you intend to apply, whether large-scale format or in combination with one of our standard colors, with RAUVISIO crystal vario, everything is possible.

We match your personal, requested color (e.g. based on RAL shades) in low purchase quantities*.

*Minimum order quantity: 20 boards

Dimensions:
2,800 x 1,010 x 19 mm
2,800 x 1,010 x 4 mm

Purchase quantity:
From 20 boards*

We are able to offer the perfectly coordinated PUR adhesive if you would like to press laminates and balancing sheets yourself:

RAUVISIO Flat-Lam PUR

Made-to-measure from from one piece
**Top quality**
Finished RAUVISIO brilliant components made of coextruded material are TÜV-tested according to AMK guidelines.

**PRODUCT ADVANTAGES**

**Saving & drilling**
RAUVISIO brilliant can be processed with simple wood working tools – individual, dimensionally accurate pre-cuts, holes for handles or fittings can be implemented very conveniently.

**Bending & folding**
RAUVISIO brilliant is ideally suited for simple bending and folding. It can be shaped into almost any form and therefore provides a great deal of design freedom for sophisticated furniture designs.

**High gloss on the milling radius**
Combined with the polymer zero-joint edgeband and new processing technologies, the conventional frame effect disappears completely with RAUVISIO brilliant. The result is a perfect, all-round gloss on the entire workpiece.

**UV resistance**
RAUVISIO brilliant boasts high levels of light-fastness and UV resistance. No color distortions occur as a result of different light and sun irradiations for interior applications.
Custom room design is fashionable. Regardless of whether you prefer a high-gloss depth effect or matt elegance, we have developed an exclusive surface with a hard coat finish with RAUVISIO brilliant SR. In addition to its appearance, the material also captivates with its exceptional resistance to scratches and chemicals achieved thanks to the lacquer.

RAUVISIO SURFACE CONFIGURATOR
The service for joiners

Configure your made-to-measure front in four easy steps from one piece. You will subsequently get a completely edged component with total seamless integration as we exclusively process our patented zero-joint edgeband RAUKANTEX pro. You will get a perfect component and maximum quality with a minimum of processing work.

www.rehau.com/boards

Your advantages with the surface configurator at a glance:

- 1 piece - production
- Convenient delivery
- Matching edgeband with invisible joint quality
- Made-to-measure fronts – no off-cuts
- Easy online ordering
Configure your own made-to-measure front in **simple steps from one piece.** You will then obtain a finished, edged with total seamless integration — as we only work with our patented zero-joint edgeband RAUKANTEX pro.

1. **Selecting the RAUVISIO surface**
2. **Entering the dimensions**
3. **Selecting the distribution partner**
4. **Convenient delivery**

Surface configurator is not available in all countries.

We provide various services, which are supposed to help you realise your vision:

**www.rehau.com/interior**

Our central platform, which we offer to help you successfully handle your projects. In addition to product information, assembly videos and brochures, additional services are at your disposal there.

**Edgeband search and sample service**

Find the matching edgeband for your surface with just a few clicks! Matched to **more than 15,000 boards of all leading manufacturers** our edgebands can be supplied at short notice from a meter respectively a coil. See the perfect match between edgeband and board for yourself and order a free-of-charge sample!
