

# PRODUCT SUBMITTAL 504

**Product:** Fixing Rail 3/8" – 3/4"  
**Date:** 04-Jan-11 (supersedes, 14-October-09)

Article No.	Description Nominal Pipe Size - Length
266407	Fixing Rail for 3/8", 1/2", 5/8" and 3/4" RAUPEX <sup>®</sup> – 3.3 ft (1m)

### TECHNICAL DESCRIPTION

Material	Polypropylene
Height / Width	1.14" x 1.97" (2.9 x 5.0 cm)

### FUNCTIONAL DESCRIPTION

REHAU's fixing rail is an efficient and durable fastening device for holding RAUPEX pipes in radiant floor and SIM applications. Fixing rail reduces installation time for more economical pipe installation, and provides rapid installation of RAUPEX pipe in a thermal mass or in a sand bed, and with certain wall/ceiling applications.

Fixing rail works with RAUPEX pipes in the four pipe sizes indicated above. Fixing rail is molded with alternating small/large RAUPEX pipe-holding tabs that securely hold the pipe in place. Alternating tabs are spaced at 4" (10 cm) on-center for installed pipe spacing of 4", 8" or 12" (10 cm, 20 cm or 30 cm) on-center:

- The small tabs hold 3/8" and 1/2" RAUPEX pipes
- The large tabs hold 5/8" and 3/4" RAUPEX pipes

Fixing rail sections are pre-drilled on the flat base for fastening to foam insulation with REHAU plastic holding pins (Art. 259268) or to wood or masonry with screws or other appropriate fasteners (not included). Clips at the end of each piece allow pieces to be snapped together to make longer lengths. Follow all published installation instructions.
