EVERLOC+ helps a modern, high end home development meet the highest standards

Liberty Park, a 4,000 acre planned community located near Birmingham, Ala., is the essence of modern, high-end suburban living, featuring new homes built to the highest quality standards. So when Bonham Plumbing Inc. took on the job of installing the plumbing systems for 50+ new homes, REHAU suggested they use the brand-new EVERLOC+ compression-sleeve plumbing system.

*"REHAU was the best plumbing system. I'm glad to see you're back."
-Eric Bonham, Bonham Plumbing.*

"EVERLOC+ is just as good of a connection as the old F2080 system. The difference is it's faster, it's easier to handle, it's down to one tool," said Donald Fortenberry with Bonham Plumbing Inc. "What I like best about EVERLOC+ is that you don't have to wait," added his colleague David Isbell. "If it's cold or wet – or both – you can make your connection and go. Once you put the fitting together, you're done. You can walk away and turn the water on."

Project: Liberty Park, Birmingham, AL

Construction type: Residential community

General contractor: Bonham Plumbing Inc.

REHAU systems used: EVERLOC+ compression-sleeve fitting system
