## Single-family development uses REHAU as standard for modern, affordable construction

Executive Estates, a community of single-family homes in the growing town of Farmington, Minnesota, is a new development by Johnson-Reiland Builders & Remodelers that sets the standard for modern and affordable housing. As construction began, REHAU heard from longtime customer, Paul's Plumbing & Heating, who wished to install the EVERLOC+ compression-sleeve fitting system. The EVERLOC+ power tool and the system's consistent compression-sleeve technology proved easy and quick for plumbers Jed Corriveau and Todd Gylling.

*"The EVERLOC+ fittings are better quality, better built than what we've used in the past. They are also a lot easier to put together,"*

said Todd Gylling, co-owner of Paul's Plumbing & Heating. His employee, Jed Corriveau concurred and added "EVERLOC+ is one of the better systems. Plus working in the cold, I do like that the PEXa pipe is more flexible."

**Project:** Executive Estates, Farmington, MN

**Construction type:** Residential community

**General contractor:** Paul's Plumbing & Heating

**REHAU systems used:** PEXa plumbing system (RAUPEX® pipe, EVERLOC+® compression-sleeve fitting system)
