Water, Gas and Fire

Product book AUSTRALIA

RAUTITAN - The new generation

Reliable. Versatile. Secure.

The RAUTITAN system has been developed in collaboration with our industry partners across the globe; installers, designers, builders and developers. A complete and comprehensive building technology solution for water, fire sprinkler, gas and hydronic heating services complemented by the RAUTOOL range; the RAUTITAN system is reliable, versatile and secure.

Quality

Developed in collaboration with designers, installers, builders and developers across the globe RAUTITAN represents the result of over 60 years experience in polymer processing and industrial manufacturing.

Produced in state-of-the-art manufacturing facilities with advanced quality management processes ensures that all system components combine seamlessly, delivering a reliable and robust system. RAUTITAN PXsr polymer fittings are produced using state-of-the-art robotics technology to guarantee optimum quality. All RAUTITAN ONE fittings are 100% manufacturer pressure tested for unrivaled reliability.

As a global supplier of materials for a diverse range of industries REHAU understands what is required to get the job done.

Innovation

As a partner of the global construction industry for nearly 50 years, REHAU is dedicated to meeting industry challenges such as sustainability, efficiency and reliability. With significant investment in R&D, REHAU has delivered countless patents and innovations such as the RAUTITAN PXsr polymer fitting. The RAUTITAN PXsr range not only provides for an easier installation with the easy-slide reversible sleeve, but also provides improvements with regard to hygiene. We continue to invest and develop new materials, designs and technology to meet the future requirements of our industry.

Service

For more than 30 years REHAU has been supporting and servicing the Australia and New Zealand plumbing industry. Dedicated to ensuring our customers enjoy the best quality and service we are committed to having a qualified and local contact. With a team of qualified technical sales managers located across the region supported by our central design and engineering team in Sydney and local customer service.

The quality of any plumbing system is only as good as its design, installation and operation. REHAU training academies are available to ensure that the best of the system is realised.

System overview

RAUTITAN water, gas and fire services
16 - 63mm

38

REHAU services
One-stop Supplier of Quality Solutions

In locations with known problems of fitting corrosion or where the water is or is suspected to be highly corrosive (e.g. in volcanic areas, in installations using bore/well water or in applications using water with high sulphur content, etc), there is a danger that fittings corrode quickly. The suitability and warranty coverage of the RAUTITAN pipe system in such installations require a prior independent consultation with REHAU. In some cases, the accessible or nearby water quality may also void the REHAU warranty unless appropriate water treatment is provided.

**RAUTITAN water, gas and fire services
16 - 40mm**

RAUTITAN water, gas and fire

16 - 63mm

RAUTITAN ONE is a comprehensive system for internal hot & cold water, fire sprinkler, gas and hydronic heating systems, including PE-Xa pipe, multi-layer (PEX-AL-PE) pipe, compression sleeve fitting system and a range of professional installation tools. The No.1 in Australia.

One Sleeve.

Easy-slide reversible sleeve for safe connections without leakage.

One Fitting – for easy, fast and secure connections.

If you use different pipe systems for water and gas installations, we recommend our RAUTITAN system. Now you can use one fitting and sleeve for both applications. Most convenient for your daily work.

RAUTITAN PXsr

Combining more than 60 years of world class expertise in polymer engineering and over 40 years of plumbing installations across the globe, REHAU has redeveloped the PXsr fitting to create even greater resistance to on-site chemicals. The PVDF fitting continues to offer all the great benefits of polymer fittings in addition to being Solvent Resistant that is, the fittings do not suffer "environment stress cracking" when exposed to known chemicals used on construction sites in Australia including glues, primers and solvents. REHAU is proud of the RAUTITAN next generation piping system - RAUTITAN PXsr: a revolutionary polymer fitting system.

RAUTITAN fittings are protected by Australian Design Registration No. 327395, 327396, 327397.

The RAUTITAN Water Services system is Easier, Faster and More Secure.

RAUTITAN water service system was developed in collaboration with industry professionals in order to meet the needs of builders and the plumbing trade. It is quick and easy to install while being extremely reliable. In addition to that, the system allows savings in time, labour and material costs.

The strength and flexibility of cross-linked high-density polyethylene (PE-Xa) pipes and PE-X/AL/PE composite pipes used together with a complete range of RAUTITAN ONE and MX (DZR brass) and RAUTITAN PXsr (polymer PVDF) fittings makes RAUTITAN a superior system that can be used in both residential and commercial applications.

Advantages

- Simple and fast installation
- Permanent leak-proof joint
- Inhibit corrosion and incrustation
- Colour differentiation between hot and cold water lines, recycled and rain water
- Joint integrity verified by visual inspection
- Reduces water hammer
- One sleeve - all applications
- Solvent resistant fittings - PXsr

RAUTITAN for Fire Sprinkler

The National Construction Code 2019 references a new type of fire sprinkler system as defined by the standard FPAA101D. This type of system draws water from the drinking water supply of the residential building and as such allows PE-X piping systems to be used providing they are Watermark certified to AS 2492 and AS/NZS 2537 respectively. This applies to class 2 and 3 residential buildings that have been approved after May 2019 with 4 levels or more and less than 25m height.

As a leading plumbing piping system provider in Australia, REHAU once again has the perfect solution. REHAU's RAUTITAN plumbing system has set the benchmark for plastic piping technology in the Australian/New Zealand plumbing industries for over 30 years. It's supreme reliability, simplicity and performance makes it the ideal solution for use as a fire sprinkler piping system for the aforementioned building types.

REHAU services

REHAU Authorised Installer Network (RAIN)

Not only is the quality and design of REHAU piping systems exceptional, the company's commitment to the people who sell and install them is just as outstanding. Consequently, REHAU plumbers worldwide enjoy an array of benefits second to none.

Stay on top of your trade with myREHAU.com

REHAU is much more than your supplier of piping and fittings. We aim to provide a standard of after-sales service to match the world-class quality of our products.

To assist you and your team to utilise the full capabilities of our products and services we have developed the REHAU Authorised Installer Network (RAIN) which is offered through the myREHAU.com rewards and training online portal. Our vision is to grow and support our customers as they mature across the marketplace. The RAIN network is an exclusive group of installation experts who are trained and authorised by REHAU to install the RAUTITAN product range.

myREHAU.com rewards is a loyalty platform that offers our customers tools, tool service and accessories, safety equipment and merchandise using points acquired through the purchase of REHAU products. It helps our customer stay up to date with latest tool accessories and maintenance.

**AUTHORISED
INSTALLER**

The myREHAU.com Benefits

Earn myREHAU points as you purchase eligible REHAU water, fire sprinkler, gas, drainage, UFH and Sewer products which can be redeemed for tools, accessories and merchandise. Refine your skills and knowledge through online training modules and get certified as an approved installer. Stay up to date with the latest in REHAU innovations, events and regulations. Acquire special design assistance for your projects.

To register visit myREHAU.com and sign up to the program.

Project Design Support

Whether your project is a family home or a 40-storey high-rise development, REHAU is your design partner. Our central design office and experienced engineers can provide advice regarding system performance, pipe layout, required materials, controls, hydraulic consideration and much more.

Submit your project details (description and CAD drawing) to our central design office or go online and complete a DIY design.

myREHAU.com

Your Perfect Long-term Partner

We offer you the strength of a world-leading brand of polymer-based solutions. One that is backed by outstanding innovations, the most modern manufacturing technologies and flexible logistics. You'll find in REHAU a future-oriented and reliable partner with a width and depth of expertise second to none.
