# Become more efficient with your fabricator

Ordering windows has never been as simple as shopping online, but now REHAU have the answer. After your visit with the homeowner, you can request a quote or place an order with your fabricator.

## All information at your fingertips

With just one click and it's equally as simple for the fabricator to return the quote or order confirmation.

## Send structured quotations to your fabricator

How often have you created quotes on scraps of paper or sent information via What'sApp? Probably quite often! Save time and prevent any mistakes by sending a structured quotation to your fabricator, including detailed drawings of your required windows. You can also download a PDF file if required.

## Faster communication helps win business

Once your fabricator has quoted, you will receive an email notification. Just login to your account and you can forward the quote directly to the homeowner for confirmation. Your fast and professional response can help win the project.

## Better ordering – more business!

You have won the project and are ready to order from your fabricator. Just one click and your fabricator will receive the order and start fabrication. No additional communication is required as the detailed quotation has all the information the fabricator needs.
