Enhancing lives

FLIPDOOR **The Art of Storage**

Sophisticated design and functionality
combined into one unique concept

www.rehau.com/flipdoor

Engineering progress

What motivates the furniture industry? The continuous search for ground-breaking innovations paired with necessity, all of which are engrained in REHAU's DNA.

This is why we always look at our existing products, to turn something good into something even better whilst setting new trends. Remaining focused on quality has helped shaped us into who we are today. In a nutshell: Engineering progress. Enhancing lives.

A man with a beard, wearing a white t-shirt and brown trousers, is cooking in a modern kitchen. He is holding a frying pan over a gas stove. Sliced yellow and green vegetables are flying in the air above the pan. The kitchen features dark grey cabinets, a wooden countertop, and a large potted plant in the foreground. A bottle of olive oil and a pepper mill are on the counter. A large window in the background shows a view of the outdoors.

Enhancing lives

Replace the ordinary with innovation.

If you approach storage space creatively, and think about functionality beyond the ordinary, then a piece of furniture suddenly turns into more than just a simple overhead kitchen cabinet. You end up with something completely new: FLIPDOOR.

Or as we like to call it:
The Art of Storage.

**What makes
FLIPDOOR
different**

**Exceptional aesthetics**

At first glance, the sleek and simple lines of the FLIPDOOR are captivating. The invisible track system only adds to the true elegance of the opening mechanism.

Exceptional design

Because looking good isn't quite enough, FLIPDOOR impresses users beyond all levels: from the smooth scissor-like mechanism, to space-saving opening and all delivered pre-assembled.

Exceptional material

Manufactured from durable, low-maintenance RAUVISIO crystal, FLIPDOOR works in perfect harmony with other furniture made using REHAU surfaces.

Uniquely elegant

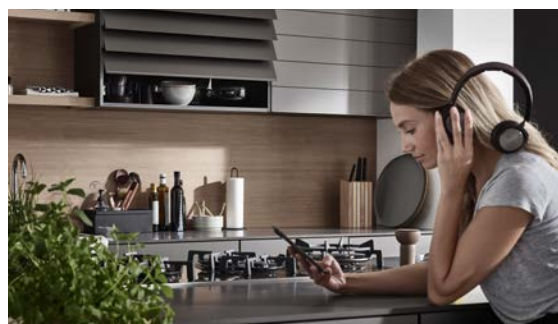

FLIPDOOR is visually appealing - open or closed. A feast for the eyes.

It's all in the detail.

Design highlight

Is it the elegant opening mechanism, or the invisible track that results in a seamless finish? Or is it the vast colour options that the RAUVISIO crystal range offers, that can create a subtle or an eye-catching design. Whatever it is: The result is a stunning kitchen - every time. With FLIPDOOR.

Safe and efficient

The RAUVISIO Crystal slats make it easy to open, making tasks like putting the dishes away a breeze! With no protruding edges, the risk of injury is reduced compared to other opening mechanisms.

Ready to use

The sophisticated opening mechanism doesn't turn the installation into a complicated process. In fact quite the opposite: FLIPDOOR is delivered pre-assembled and ready to install.

A space-saving marvel

The opening mechanism makes FLIPDOOR the ideal space-saving solution.

Over 70% less space required to open, e.g. compared to a folding lift door.

Stand out from the crowd.

Add a little variety

FLIPDOOR is available in all RAUVISIO crystal solid colours – both high gloss and matt – creating a seamless design and perfect harmony with other REHAU surface materials. The current collections and sample service can be found at

www.rehau.com/surfaces

A selection of current RAUVISIO crystal solid colours:

Black

Titanio

White

Ambition without compromise.

FLIPDOOR is made using our exclusive RAUVISIO crystal glass laminate. The material hosts a range of advantages – not just when compared to real glass.

**Moisture resistant**

Everyday spillages and kitchen steam are not an issue for the resilient RAUVISIO crystal material.

**Easy to clean**

Water and a microfibre cloth is all you need to clean the sealed surface.

**Resistant to scratches**

Thanks to its UV paint, RAUVISIO crystal is highly scratch-resistant and resilient. However, should you ever need to change the slats, they can be quickly and easily replaced on an individual basis.

**Anti-fingerprint**

RAUVISIO crystal's soft-touch coating on matt surfaces makes it pleasant to the touch and resistant to fingerprints.

**Shock-resistant**

RAUVISIO crystal takes the rough and tumble of everyday kitchen use in its stride with outstanding levels of shock resistance. It's a feature loved by installers and end customers alike.

Facts not fiction.

Design

- Frameless design with integrated invisible track system and scissor-like mechanism
- Chamfered edges results in ideal light reflection and an attractive appearance
- Integrated aluminium handrail, stainless steel or black anodised
- Wide selection of REHAU surfaces
- Engineered in Germany

Function

- The slats run easily and smoothly when opening and closing
- Magnetic latch

Service

- Individually replaceable slats
- Spare part service for components
- Additional information can be acquired through your sales representative

Quality

- 80,000 test cycles according to RAL-GZ 430 (minimum requirement 40,000 cycles)
- Reinforced slats for extra stability
- Materials according to REACH
- PEFC certification of the REHAU wooden parts
- PAK certification

Material

- RAUVISIO materials are resistant to breakage and scratches
- Standard range: Basic units with coated MDF board
- Standard range: RAUVISIO crystal units in high gloss or matt
- Front material made of RAUVISIO crystal in high gloss or matt

Dimensions

Height	Width	Depth	Thickness
650 mm	600 mm	373 mm	16 mm or 19 mm, depending on the choice of surface
	900 mm		
	1000 mm		
780 mm	600 mm	373 mm	
	900 mm		
	1000 mm		

The chamfered edge of the slats create a unique appearance.

The magnetic catch provides a satisfying sound when closing.

The slats can be individually replaced by the service team.
