Exelis 1030 System

With the Exelis 1030 system, casement, awning and fixed configurations are possible. This design is the perfect solution for renovations and new construction. This system is available in white, beige and clay or can be laminated with solid colors or wood-grain foils.

- 1 Up to 26 mm glazing capacity**
Provides excellent acoustic and thermal properties
- 2 Dual compression seals**
Create a tight seal against sound, air and water infiltration
- 3 Welded frame and sash corners**
Provide structural durability and reduced air, dust and water infiltration
- 4 50 mm frame depth**
Allows installation in both new and retrofit projects
- 5 Large chambers**
Allows insertion of steel reinforcements for large openings
