REHAU is a recognised sector specialist in the manufacture of products for air conditioning and system construction. Our areas of expertise lie primarily in the development and production of customer-specific components through to complete systems. Here we use the experience from developments that have already been completed and integrate our solutions into existing systems where necessary. We process complete material and colour ranges in the areas of thermoplasts and elastomers. Depending on the specification, this is included in REHAU's sector know-how.

Scope of services

- Development of single components through to complete systems including accessories
- Profiles with and without inlays
- Technically-designed for indoor and outdoor use
- Customer-specific system solutions
